Screen-free game kit · Design; not tested in practice

A Second Life for Things

Learning goal

Weigh up reduce, reuse, repair, share and proper waste handling for an object. Recycling is not the only right answer.

Materials

The card pages of this PDF (A4, 100% scale), scissors, pencils; box labels go on the table.

How to play

- No time limit; nobody is rushed.
- A wrong answer costs nothing: read why, then try again.
- A team that wants help turns over İKO's hint card.
- At the end, say what you learned in one sentence and choose the real-life task.

Task flow

Ages 7–9

Match each object with a suitable action. Some objects can have more than one right action.

1. What can we do with this object?

Ages 10–12

Each scenario may have more than one suitable solution. Choose all that fit.

1. Paper used on one side is piling up in class.
2. A desk lamp does not work.
3. Single-use plates are to be bought for the school fair.

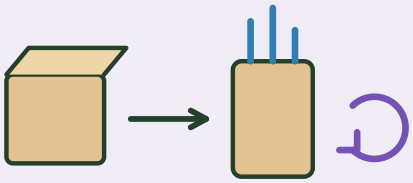

Real-life task: Find an object at home that is about to be thrown away. Talk with your family: which of reduce, reuse, repair, share or proper waste handling is possible? Check your municipality's collection rules together.

If a badge is used, it only shows the task was finished; it is not proof of learning.

Proper waste handling

Ages 7–9 · Cut-out cards

Trousers with a small tear at the knee

A Second Life for Things · Ages 7–9 · ✂ Cut along the dashed line · card 95 × 86 mm

Ages 7–9 · Cut-out cards

A coat that is too small for you but in good shape

Ages 7–9 · Cut-out cards

An empty, clean glass jar

Ages 7–9 · Cut-out cards

Buying a new plastic bottle every day

Ages 7–9 · Cut-out cards

A broken drinking glass

Ages 7–9 · Cut-out cards

A toy car with a loose wheel

Ages 7–9 · Hint

Is the object in good shape or broken? Could someone else use it?

A Second Life for Things · Ages 10–12 · ✂ Cut along the dashed line · card 95 × 86 mm

Ages 10–12 · Question card · ☐☐

Paper used on one side is piling up in class.

A. Use the back as scrap paper

B. Print double-sided when possible

C. Put it in the paper collection box once both sides are used

D. Throw it in the general bin

Ages 10–12 · Hint

Extending the paper's life comes before sending it to recycling.

Ages 10–12 · Question card · ☐☐

A desk lamp does not work.

A. See whether an adult or a repairer can fix it

B. If it cannot be repaired, take it to an electronic waste collection point

C. Throw it in the household bin

Ages 10–12 · Hint

Who can safely open an electrical item? Where does electronic waste go?

Ages 10–12 · Question card · ☐☐

Single-use plates are to be bought for the school fair.

A. Use washable plates

B. Borrow from another school or from families

C. Buy extra; if any are left, we recycle them

Ages 10–12 · Hint

Is not buying them, or borrowing, possible?

Answers and explanations (teacher only)

Ages 7–9

1	Trousers with a small tear at the knee	Repair	It can be mended by sewing.
1	A coat that is too small for you but in good shape	Share / Reuse	Someone else can wear it: share it or let someone reuse it.
1	An empty, clean glass jar	Reuse	It can be reused as a pencil pot or storage jar.
1	Buying a new plastic bottle every day	Reduce	It can be reduced with a refillable bottle.
1	A broken drinking glass	Proper waste handling	Do not touch broken glass; an adult collects it safely and disposes of it according to local rules.
1	A toy car with a loose wheel	Repair / Share	It can be repaired, and then shared.

Ages 10–12

1A	Use the back as scrap paper	Fits	Reuse.
1B	Print double-sided when possible	Fits	Reduction.
1C	Put it in the paper collection box once both sides are used	Fits	Recycling fits, but as the last step.
1D	Throw it in the general bin	Does not fit	It can be used first, and then collected separately.
2A	See whether an adult or a repairer can fix it	Fits	Repair; children do not open electrical items.
2B	If it cannot be repaired, take it to an electronic waste collection point	Fits	Proper waste handling. Collection points differ by municipality.
2C	Throw it in the household bin	Does not fit	Electronic waste should not go in household rubbish.
3A	Use washable plates	Fits	Reduction.
3B	Borrow from another school or from families	Fits	Sharing.
3C	Buy extra; if any are left, we recycle them	Does not fit	Recycling does not justify unnecessary buying.

A Second Life for Things: There are many ways to extend an object's life. Often more than one solution fits. Waste collection rules can differ between municipalities.
